Spencers Outdoor Living

THE COLLECTIONS / 2026

Make more of your garden.

Pergolas at the heart of proper outdoor living.

A CONSIDERED APPROACH

Not just a pergola. A place to live.

The best gardens feel like an extension of home: breakfast in the open air, a quiet afternoon, friends around the table and evenings that carry on after the sun goes down. We begin with the structure, then shape the light, shelter and finishing details around the way you want to live.

OUR APPROACH

Real installations. Clear choices. A space considered as a whole - supplied and professionally installed.

The people behind your outdoor space

01 / PERGOLAS

A room without a ceiling.

Turn an everyday patio into a proper outdoor living space. Open the louvres to welcome the sky. Close them when you want more shelter. Add screens, walls, light and warmth, then furnish it for the moments that matter to you.

RIVA

Strong, simple and accessible.

SIENA

Our most adaptable premium system.

FIND THE RIGHT STRUCTURE

Made for the way you live.

Riva and Siena lead the collection. Modena offers a simple fixed-roof alternative.

RIVA

A robust powder-coated steel frame with manually adjustable louvres and a clean grey finish.

5 sizes / Freestanding / Privacy screens

SIENA

Our most flexible range, with freestanding, wall-mounted and selected motorised options.

Wide size choice / 3 finishes / Extensive extras

MODENA

A minimalist aluminium structure with a fixed water-shedding roof, in grey or pebble.

3 x 3m / 4 x 3m / 5 x 3m / 6 x 3m

02 / SIENA

More choice. More ways to make it yours.

Premium powder-coated aluminium, designed around adaptable layouts and a generous choice of finishing options.

STRUCTURE

Powder-coated aluminium with 111 x 111mm posts and 140 x 75mm beams across the core range.

ROOF

Manually adjustable louvres, plus selected motorised Siena Plus models with integrated lighting.

SIZES AND CONFIGURATIONS

Freestanding sizes span compact 3 x 1.5m designs through to expansive 9 x 3m structures, with wall-mounted 3 x 3m, 3.6 x 3m, 4 x 3m and 6 x 3m options. Siena Plus motorised models are available in selected 3 x 3m, 4 x 3m and 6 x 3m sizes.

FINISHES AND EXTRAS

Grey, pebble and selected wood-look options. Pull-down screens, louvre walls, insulated panels, sliding louvre or glass doors, smart LED kits and infrared heaters - subject to size compatibility.

03 / RIVA

Strong lines. Simple control.

A practical steel pergola that brings structure, adjustable shade and a finished architectural look to the garden.

FIVE SIZES

3 x 2.4m, 3 x 3m, 4 x 3m, 5 x 3m and 6 x 3m.

STEEL FRAME

Powder-coated grey finish with 80 x 80mm legs and 130 x 50mm beams.

MANUAL LOUVRES

Turn the roof by hand to move between open sky, shade and greater shelter.

PRIVACY

Screens in 2.4m, 3m and 4m widths, with selected fixed louvre side walls.

Pair the structure with considered seating, outdoor heat and lighting for coffee, family meals and evenings outside.

04 / THE FINISHING DETAILS

Details shape the space.

Start with the way you want to use the garden, then layer in the right amount of privacy, shelter and atmosphere.

CONTROL THE EDGE

Pull-down screens soften breeze, low sun and overlooking without closing the garden away.

SHAPE THE VIEW

Fixed and adjustable louvre walls add privacy and a stronger sense of an outdoor room.

SET THE MOOD

Integrated and smart lighting shifts the atmosphere from practical task light to colour after dark.

PLAN AROUND LIFE

Dining, lounging, cooking or a spa: the best layout begins with how you use the space.

PRIVACY, SHELTER AND ATMOSPHERE

Small details make the outdoor room feel considered.

05 / OUTDOOR FURNITURE

The finishing touch, not the starting point.

Once the structure is right, furniture gives the room its purpose - a relaxed corner for two, a generous family table or somewhere to settle in as the garden lights come on. Choose for comfort, scale and the way people naturally move through the space.

CHOOSE FOR COMFORT, SCALE AND FLOW

Our team can help you balance seating with clear circulation around the pergola.

08 / FINISHING TOUCHES

Stay outside a little longer.

Layer warmth, atmosphere and protection into the space so it works beyond the brightest part of the day.

WARMTH

Pergola-mounted infrared and freestanding heaters help take the edge off cooler evenings.

AMBIENCE

Size-matched smart LED kits bring practical light and controllable colour to selected Siena models.

WEATHERGUARD

Purpose-shaped covers help keep dining, bistro, sofa, corner, lounger and parasol furniture ready.

09 / INSPIRATION

Make room for the moments.

A well-planned garden changes gently through the day and gives everyone a reason to stay.

MORNING

Open louvres. Soft light. A quiet coffee before the day begins.

GATHER

A generous table, clear circulation and shelter for everyone.

UNWIND

Screens for privacy, comfortable seating and a view into planting.

STAY LATE

Warm light and gentle heat make the garden inviting after sunset.
